Portfolio nunomarques97.github.io/portfolio · github.com/nunomarques97 · linkedin.com/in/ndomarques

Full stack developer at Natixis, where I've spent more than five years building and running banking applications with Angular, C# / .NET and SQL Server. I joined as an intern and was promoted three times, to Senior in 2026. I also build the AI tools my team uses, and ship my own software with AI agents.

5+ years

shipping banking software with Angular, C# / .NET and SQL Server

Intern → Senior

promoted three times in five years

AI in daily work

a RAG system and AI skills my team uses every day

EXPERIENCE

Natixis · Corporate & investment bank

Porto, Portugal · Feb 2021 – Present

			
Intern	Junior Developer	Developer	Senior Full Stack Developer
Feb 2021	Nov 2022	Feb 2023	Feb 2026 – now
BUILD	Angular front ends and C# / .NET REST APIs on SQL Server and EF Core, from database to UI.		
OWN	Technical owner of most of the team's front-end projects, from architecture to release.		
UPGRADE	Upgraded the app from Angular 13 to 22 and our services to .NET 10, live in production.		
SHIP	Jenkins, SonarQube quality gates, XL Deploy / Release; xUnit, NUnit, Cypress tests.		
TUNE	SQL for heavy load and Control-M batch jobs behind critical financial workflows.		
AI	Built a RAG system over internal docs + Jira API; wrote AI skills colleagues use daily.		
LEAD	Review code and mentor the junior developers and interns who join the team.		

SIDE PROJECTS · more on my portfolio: nunomarques97.github.io/portfolio

FORJA — Runs Claude Code as a small software team: it plans, builds, runs the checks and gets every task independently reviewed. github.com/nunomarques97/forja

Tollwise — Local proxy for the OpenAI and Anthropic SDKs that sends each request to the cheapest provider able to serve it and shows the savings. github.com/nunomarques97/tollwise

Jarvis — Offline voice assistant: local speech-to-text that hands spoken commands to Claude Code sessions. github.com/nunomarques97/jarvis

Gearlift — Android training app in React Native / Expo with Firebase and 400+ automated tests, in closed testing on Google Play.

SKILLS

Core	C#, .NET, ASP.NET, Entity Framework Core, SQL Server, REST APIs, Angular, TypeScript, RxJS, NgRx
Also	React, Node.js, Python, MongoDB, Docker, Git
Delivery	Jenkins, SonarQube, XL Deploy / Release, Control-M, xUnit, NUnit, Cypress
AI	RAG, LLM integration, AI agents, Claude Code, Ollama

EDUCATION

BSc Informatics Engineering 2015 – 2021
ISEP – Instituto Superior de Engenharia do Porto
