Full stack developer at Natixis, where I've spent more than five years building and running banking applications with Angular, C# / .NET and SQL Server. I joined as an intern and was promoted three times, to Senior in 2026. At work I built a RAG system over our internal documentation. In my own time I build software with AI agents.

5+ years

shipping banking software with Angular, C# / .NET and SQL Server

Technical owner

of most of the team's front-end projects

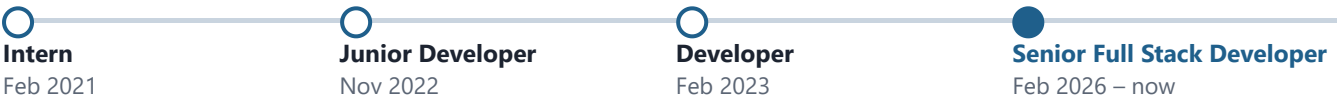

RAG at work

over our internal documentation and Jira

EXPERIENCE

Natixis · Corporate & investment bank

Porto, Portugal · Feb 2021 – Present

- BUILD** Angular front ends and **C# / .NET REST APIs** on **SQL Server** and EF Core, from database to UI.
- OWN** **Technical owner** of most of the team's front-end projects, from architecture to release.
- UPGRADE** Upgraded Angular in phases (**13** → **17** → **20** → **21** → **22**) and our services to **.NET 10**, always live.
- SHIP** **Jenkins**, **SonarQube** quality gates, **XL Deploy / Release**; **xUnit**, **NUnit**, **Cypress** tests.
- TUNE** **SQL** for heavy load and **Control-M** batch jobs behind critical financial workflows.
- AI** Built a **RAG system** over the internal documentation, connected to the **Jira API**.
- LEAD** **Review code** and **mentor** the junior developers and interns who join the team.

SIDE PROJECTS

What I build outside work: AI tooling, automation for small businesses and apps, each shipped end to end.

FORJA Runs an LLM coding agent as a small software team that plans, builds, tests and reviews every task. [GitHub ↗](#)

Repcastr n8n automations for small businesses (WhatsApp reminders and confirmations), with a [repcastr.com ↗](https://repcastr.com) scroll-animated three.js site.

Tollwise Proxy for the OpenAI and Anthropic SDKs that sends each request to the cheapest capable provider. [GitHub ↗](#)

Jarvis Offline voice assistant that turns spoken commands into tasks for an AI coding agent. [GitHub ↗](#)

See every project, with screenshots and details, on my portfolio
